

Project Performance Test

Date	13 July 2026
Team ID	
Project Name	Visualization Tool for Electric Vehicle Charge and Range Analysis
Maximum Marks	4 Marks

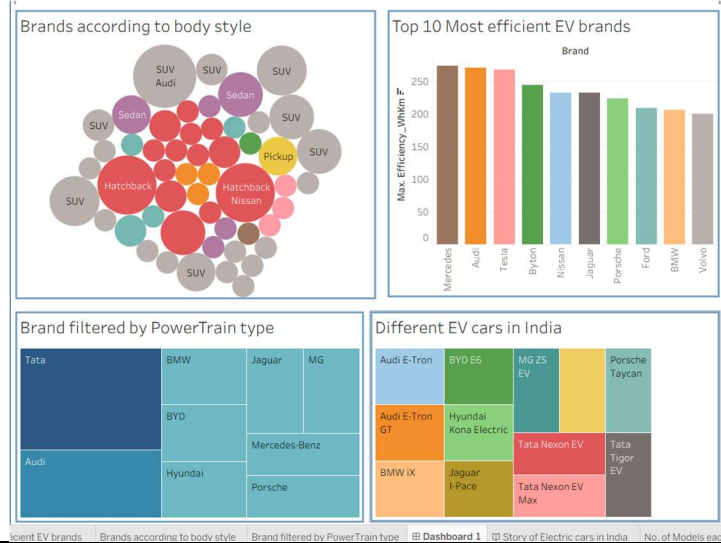

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Data Rendered	Dataset-1: EV Population Dataset – Contains electric vehicle registration details, manufacturer, model, model year, electric range, vehicle type, and CAFV eligibility. Dataset 2: EV Specifications Dataset – Includes battery capacity, charging time, fast charging speed, power, top speed, and driving range of electric vehicles. Dataset 3: EV Charging Stations Dataset – Contains charging station locations, charger types, charging network, connector type, and availability details. Dataset 4: Global EV Sales Dataset – Includes yearly EV sales, market share, country-wise adoption, and manufacturer-wise sales statistics. 
2.	Data Preprocessing	- Handled missing values - Changed data types (String, Number, Date) - Renamed columns for consistency - Established relationships/joins between the four datasets - Created calculated fields and formatted measures for analysis.

		Removed duplicate records
3.	Utilization of Filters	Filters implemented in the dashboard: • Brand • Model • Vehicle Type • Model Year • Electric Range • Battery Capacity • Charging Time • Country/Region (if available) 
4.	Calculation fields Used	• Average Electric Range • Average Battery Capacity • Average Charging Time • Total EV Models • Total Manufacturers • Total Charging Stations • Percentage of EV Sales Growth
5.	Dashboard design	No of Visualizations / Graphs - 8 1. KPI Cards (Total EV Models, Manufacturers, Charging Stations)

2. Bar Chart – EV Models by Brand
3. Pie Chart – Vehicle Type Distribution
4. Line Chart – Global EV Sales Trend
5. Scatter Plot – Battery Capacity vs Electric Range
6. Map – Charging Station Distribution
7. Tree Map – Brand-wise EV Models
8. Heat Map – Charging Time Analysis

6 Story Design

No of Visualizations / Graphs -4

Story 1: EV Population Analysis

Story 2: Brand & Model Comparison

Story 3: Battery Capacity and Electric Range Analysis

Story 4: Charging Station & Charging Time Analysis
